Shortly after, community member Nettar29 posted: "I'm guessing it's in the 20 to 30 GB range." As of September 27, 2013, Space taken by the update is 54.3 GB (or 42.2 MB). Contents It must be noted that the game is dependent on an internet connection, so to play it, you must install the game from the disc, without any updates or add-ons, and then update the game from then on using the disc. Also, the game can only be played if you are connected to the internet; it will not work offline. The game's installation is split into two parts. The first part is the installation, the first time you boot the game. This installation is the same whether you play the game or not, as it is necessary in order to run the game's application data, data files, and so on. The size of this part is between 2.5 GB and 3.4 GB, depending on your system specifications, and takes the space indicated above. The second part is the main part, which allows the game to work offline. The size of this part is dependent on the amount of data you have. Normally, only the needed data is downloaded, making the game playable without an internet connection. The size of this part is between 2 GB and 3 GB, depending on your system specifications. The game updates will take anywhere from 2.5 GB to 3.4 GB of space. Seeking out the download files is a fairly straightforward task, which is described in the below section. In order to install the game, firstly, burn the CD image of the game to a blank CD. The CD image can be downloaded from the game's website. Download the game, as well as the ISO image for it, from the official website. Use the ISO image to burn the game to the CD. You can use the software you have installed on your PC, or if you do not have one, you can use a third-party burning program, like a program such as Brasero. If you do not have an internet connection, you can play the game without having an internet connection. The only thing you will need is a good connection to the local network, and preferably a fast one. If you have an internet connection, you can play the game without having an internet connection. This is useful, as it allows you to play the game when 82157476af
